PREPARED FOR

DOI Office of Law Enforcement & Security

Interior Business Center

UEI CKXMD3HBP1P7 | CAGE 92SX6 | SDVOSB | HUBZone

*Operator/instructor in a training environment — provided by
Valletta*

COMPANY OVERVIEW

Federal Law-Enforcement Training, Built by Current Operators

Valletta Industries combines federal law-enforcement and force-protection training experience with current protective-force operations — a contractor that understands both how officers must be trained and how training standards, policy, and performance expectations operate in real-world security environments.

01 PROFESSIONAL SERVICES

Engineering & program management, data analytics, professional security staffing

02 SCENARIO-BASED TRAINING

Tactical training, AT/FP, defensive & tactical driving, role-player/OPFOR integration

03 HUMAN PERFORMANCE

Warfighter performance, resilience, and medical staffing support

SDVOSB | VOSB | SBA-Certified HUBZone | CMMC Level 1 | GSA MAS GS-00F-204GA | SeaPort-NxG Prime

Full-Lifecycle Alignment With the Draft PWS Scope

DRAFT PWS REQUIREMENT	VALLETTA CAPABILITY / APPROACH
Curriculum package — lesson plans, instructor guides, student manuals, scenario scripts, assessment tools	8-step curriculum-development lifecycle; all deliverables DOI-owned
Multi-module curriculum, 40-44 training hours (threat recognition, UOF, de-escalation, survival tactics, high-risk stops, stress/resiliency, scenario-based)	Instructor cadre from SOF, law-enforcement & military backgrounds; scenarios built with scoring rubrics & AAR
Four course iterations, Sept 2026-Aug 2027; DOI trainer certified for future sessions	Formal Train-the-Trainer model; nationwide mobile training-team delivery with instructor redundancy
Program documentation, SOPs, safety protocols, final annual report	Reporting framework: pre/post results, pass rates, remediation trends, AAR-driven revisions
Contractor requirements — certified instructors, insurance, DOI security compliance	CMMC Level 1; active federal training programs for DIA, FBI, U.S. Navy, HHS, USDA

SOURCE: DRAFT PWS §4.1 — CURRICULUM DEVELOPMENT

“The contractor will create a multi-module curriculum covering:”

- Threat recognition and response
- Use of force decision-making
- De-escalation strategies
- Officer survival tactics
- High-risk stops and field operations
- Stress performance, resiliency, and mental readiness
- Scenario-based training exercises

Highlighted modules map directly to Mission Protect’s scenario library — see p.5

Small-Arms, Law-Enforcement & Survivability Training at Allied Ranges Nationwide

LIVE-FIRE / SMALL-ARMS RANGE

PLACEHOLDER IMAGE

Live-fire / small-arms range training — provided by Valletta

TACTICAL & SCENARIO

PLACEHOLDER IMAGE

Law-enforcement tactical & scenario training — provided by Valletta

SURVIVABILITY / DEFENSIVE

PLACEHOLDER IMAGE

Survivability & defensive-tactics training — provided by Valletta

Delivered at allied ranges CONUS/OCONUS — small-arms platforms M9 / M4 / M500 / M18 / M14 — DIA, FBI, Military Sealift Command, and U.S. Navy training programs

FEATURED CAPABILITY

MISSION PROTECT

A DOI-OWNED DIGITAL TRAINING PATHWAY

A modular, AI-enabled curriculum transformation and performance-measurement capability that converts approved source material into interactive, role-relevant training — while supporting adaptive learning, remediation, and learner-performance analytics.

STANDARDS-BASED INTEROPERABILITY

Designed for SCORM, xAPI, AICC, and IMS QTI — portable across compatible learning environments.

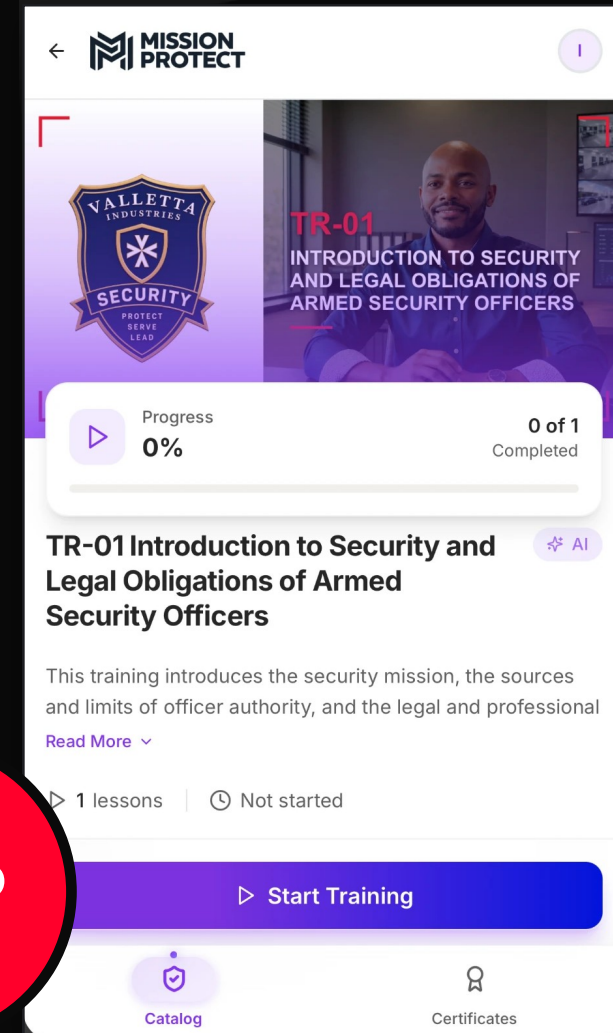

ADAPTIVE REMEDIATION & ANALYTICS

Learner-performance data at the objective and scenario level, feeding targeted refresher content.

DOI-OWNED, NO VENDOR LOCK-IN

Government-owned courseware OLES can sustain independent of a single contractor-hosted platform.

ACTUAL PRODUCT UI

MP

CLOSING

BUILT BY OPERATORS.

A proven partner to stand up DOI's own OSSTP.

CURRENT OPERATOR, NOT JUST AN INSTRUCTOR

Active protective-force operations reinforce every module Valletta designs and teaches.

MISSION PROTECT: A DOI-OWNED DIGITAL PATHWAY

SCORM / xAPI / AICC / IMS QTI-ready courseware with learner-performance analytics — no vendor lock-in.

NATIONWIDE, REDUNDANT DELIVERY

Mobile training teams, instructor redundancy, and controlled courseware across CONUS/OCONUS sites.
