

SITE VISIT ASSESSMENT

PART 2 OF 2 – TRAINING, EQUIPMENT & OVERALL PERFORMANCE

Operational Readiness, Contract Performance & Management Support Review

VISIT INFORMATION

SITE / LOCATION

Whiskey

VISIT DATE(S)

15 September 2026

MST MEMBER(S)

Michael Flanagan

MST ROLE(S)

NTM

SITE MANAGER

ST: Harry Zimmerman

PURPOSE AND SCOPE

This Management Support Team Site Visit Assessment provides leadership with a structured, evidence-based snapshot of site operations, personnel readiness, supervisory effectiveness, training, equipment, weapons accountability, emergency readiness, and support requirements. Findings are based on conditions observed, records sampled, and personnel engaged during the visit. The assessment identifies strengths, risks, trends, and areas requiring follow-up or higher-headquarters support. It does not replace a formal quality-control inspection.

ASSESSMENT AREAS

Staffing & Post Operations | Leadership & Supervision | Training & Readiness | Equipment & Weapons | Overall Performance

This document covers: Part 2 of 2 – Training, Equipment & Overall Performance

SECTION I — TRAINING AND PERSONNEL READINESS

- 1. Does a sample review of personnel files show required training, weapons qualifications, certifications, and PFT requirements are current?**

Meets Standard (5)

Comments / observations:

In site managers office (hard copy). Electronics are held with ST. Current as of 15 Sep.

- 2. Are required on-site training records and individual training documentation current, organized, and readily accessible?**

Minor Deficiency (3)

Comments / observations:

Site manager folder. Trainers do not currently electronically maintain. Area to improve.

- 3. Is the Site Trainer prepared to execute scheduled basic/sustainment training and maintain required training support materials?**

Ready (5)

Comments / observations:

Yes, Site Trainer is fully prepped to execute training.

- 4. Do personnel sampled demonstrate working knowledge of post orders, access control, emergency/alarm response, and notification procedures?**

High (5)

Comments / observations:

Yes, CP inquiries were answered in a professional and efficient manner.

- 5. Are required refresher, combatives, use-of-force, and other recurring training requirements being maintained or scheduled appropriately?**

Meets Standard (5)

Comments / observations:

When not in transition between contracts, the ST believes they are more efficient.

SECTION II — EQUIPMENT, WEAPONS AND EMERGENCY READINESS

- 6. Is required contractor-furnished operational equipment present, serviceable, and available for mission use based on the sample observed?**

Minor Deficiency (3)

Comments / observations:

Due to shortfalls in appropriate armory tools, some weapons were noted to have light dusting of rust

- 7. Are firearms, ammunition, and related weapons equipment securely stored, controlled, and accountable?**

Meets Standard (5)

Comments / observations:

Weapons were secured, with ammunition in a separate controlled space. Logbooks accurate.

- 8. Are radios, emergency communications, visitor-management systems, and other mission-critical systems operational?**

Minor Deficiency (3)

Comments / observations:

Yes. Battery life spans in radios are a concern.

- 9. Are required individual duty items and protective equipment available and serviceable for personnel observed?**

Minor Deficiency (3)

Comments / observations:

Med bags are reaching shelf life and require replacement.

- 10. Does the site appear prepared to execute site-specific emergency, alarm, active-threat, and incident-response procedures?**

Select...

Comments / observations:

It is my observation that they are.

SECTION III — OVERALL PERFORMANCE AND SUPPORT REQUIREMENTS

11. Were any conditions identified that could adversely affect contract performance, officer safety, security, or mission accomplishment?

Select... 

Comments / observations:

12. Are there staffing, equipment, training, policy, or administrative issues requiring Management Support Team action?

Select... 

Comments / observations:

13. Were any noteworthy best practices, improvements, or strong performance indicators identified during the visit?

Select... 

Comments / observations:

14. Based on the visit, how would you assess the site's current ability to meet contractual and operational requirements?

Select... 

Comments / observations:

15. What level of follow-up is recommended following this visit?

Select... 

Comments / observations:

MANAGEMENT NARRATIVE AND VISIT SUMMARY

KEY OBSERVATIONS, STRENGTHS & CONCERNS – TRAINING, EQUIPMENT & OVERALL PERFORMANCE

RECOMMENDED ACTIONS & OVERALL ASSESSMENT – TRAINING, EQUIPMENT & OVERALL PERFORMANCE

TOTAL SCORE

AUTO-CALCULATED – PART 2 OF 2 – TRAINING, EQUIPMENT & OVERALL PERFORMANCE **411 / 500**
