Right-Fit Acquisition Path & a Repeatable Curriculum Lifecycle

RECOMMENDED NAICS

611430

Professional & Management
Development Training

RECOMMENDED PSC

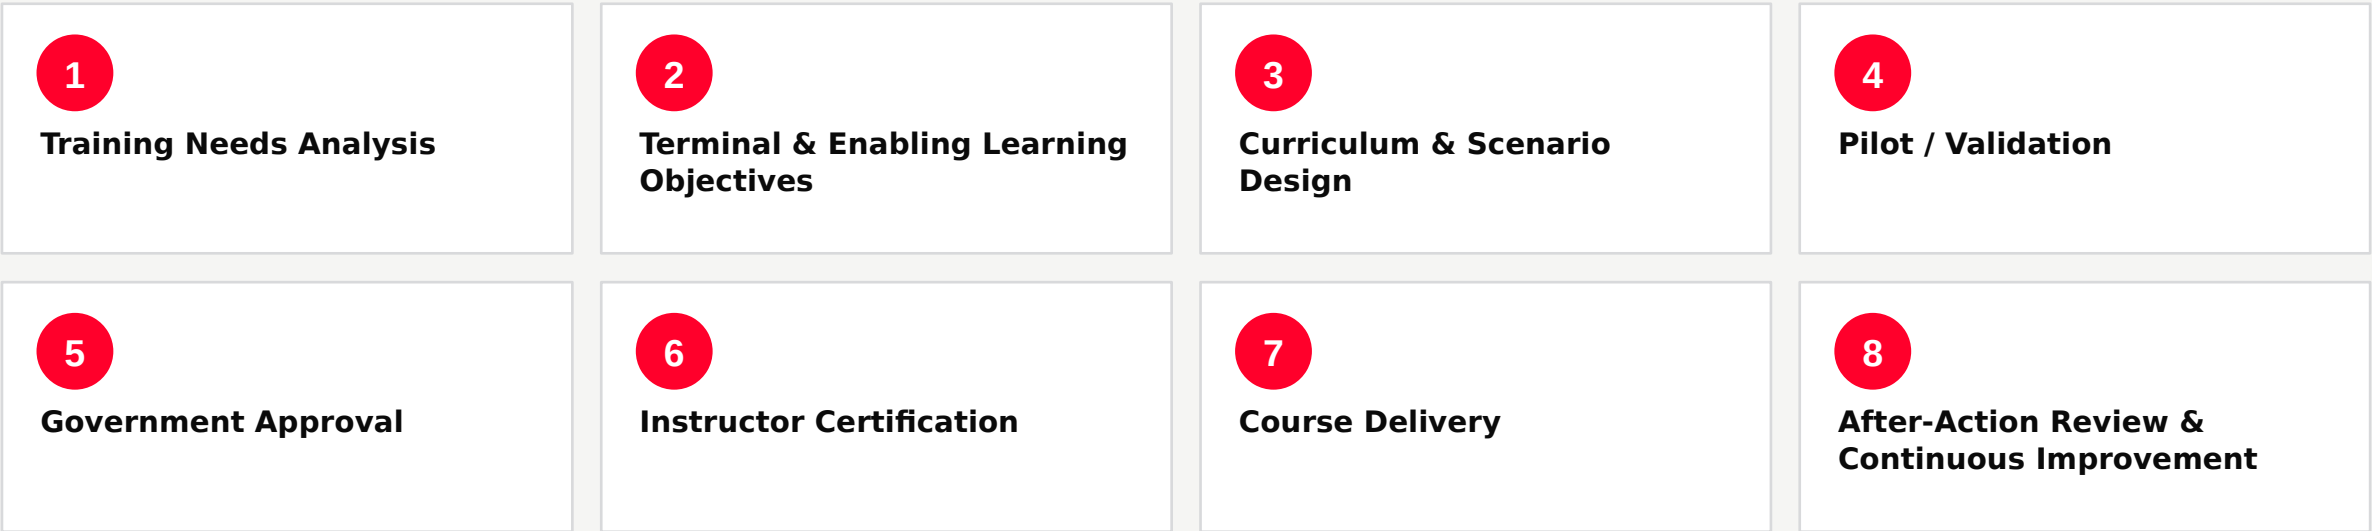

U008

Education/Training — Training/Curriculum
Development

WHY THIS APPROACH FITS

- Matches the draft SOW's emphasis on original curriculum, instructor/student materials, and DOI instructor certification — not guard services.
- Valletta already holds GSA MAS SIN 611430 and 611430ST, providing an existing acquisition path.

RECOMMENDED CURRICULUM-DEVELOPMENT LIFECYCLE — SECTION 3.1

SECTIONS 3.2 & 6 — REPRESENTATIVE EXPERIENCE

Federal Law-Enforcement & Force-Protection Training Track Record

\$3.4M+

Combined value across the relevant contracts shown below

674

Personnel trained — NAVSEA Norfolk & Puget Sound, 2023-2026

6

Federal customers: DIA, FBI, MSC, U.S. Navy, HHS, USDA

CONUS /
OCONUS

Mobile training-team delivery with instructor redundancy

CUSTOMER	PROGRAM	OSSTP RELEVANCE
Defense Intelligence Agency	Individual Protective Measures Training	Live-fire, protective measures, tactical/off-road driving, high-stress decision-making
Federal Bureau of Investigation	Fly Team Tactical Vehicle Operations	Tactical vehicle ops for Special Agents supporting high-risk counterterrorism missions
Military Sealift Command	Anti-Terrorism / Force Protection (multi-year)	High-volume CONUS/OCONUS AT/FP training; small-arms platforms M9/M4/M500/M18/M14
U.S. Navy NAVSEA	Tactical Scenario-Based Training	Scenario-based force protection at Norfolk & Puget Sound; 674 personnel trained
U.S. Navy CENSECFOR	Waterborne Security Boat Instructor East	Classroom & operational instruction, evaluation, remediation, live-fire events
HHS ASPR / SNSPS	Strategic National Stockpile Protective Services	Use of force, de-escalation, defensive tactics, weapons qualification, certification

Refinements That Deliver a Durable Training System — Not a One-Time Course

RECOMMENDED SOW REFINEMENT	BENEFIT TO DOI
Define a formal curriculum-development lifecycle	A repeatable, auditable process from Training Needs Analysis through pilot/validation, Government approval, delivery, AAR, and revision.
Define instructor qualification standards	Demonstrated law-enforcement, military, tactical, use-of-force, or firearms experience matched to each assigned module.
Establish a formal DOI Train-the-Trainer certification	Prerequisites, teach-backs, practical evaluation, safety evaluation, knowledge assessment, and recertification.
Standardize scenario design and evaluation	Learning objectives, decision points, safety controls, scoring rubrics, remediation triggers, and AAR elements.
Protect Government ownership of new courseware	DOI owns/has right-to-use newly developed OSSTP material, while legitimate contractor background IP stays excluded.
Require standards-based, portable digital courseware	SCORM / xAPI / AICC / IMS QTI interoperability so DOI can sustain content without vendor lock-in.

CLOSING

A Proven Partner to Stand Up DOI's Own OSSTP

1

CURRENT OPERATOR, NOT JUST AN INSTRUCTOR

Active protective-force operations reinforce every module Valletta designs and teaches.

2

MISSION PROTECT: A DOI-OWNED DIGITAL PATHWAY

SCORM / xAPI / AICC / IMS QTI-ready courseware with learner-performance analytics — no vendor lock-in.

3

NATIONWIDE, REDUNDANT DELIVERY

Mobile training teams, instructor redundancy, and controlled courseware across CONUS/OCONUS sites.
